

# Green Energy in tunnel oven

**NEW!**

## Electrical heat exchanger:

- Heat exchanger with electrical heating system
- Fits into your existing oven
- Fits various oven brands
- Separate control box with solid state relays
- Up to 200/300 KWH per zone
- CE/UL marked

## Benefits:

- Precise temperature control
- Sustainable energy use
- No fossil fuel energy
- No combustion gasses
- No CO<sub>2</sub> emission
- Ready for new climate regulations
- Higher energy efficiency
- Convenient hygienic execution
- No burner maintenance stops
- Replacement in a day or two

## Remote installation:

- through Augmented Reality is possible!

**Green climate friendly energy in existing tunnel ovens.**  
Simply replace gas with electrical energy.
